

## FHT Quiz 1

Fetal Tracing Quiz Please answer each question.

1. What is the baseline of the FHT?

- 140
- 145
- 150
- 155
- 160

2. Describe the variability.

- Absent.
- Minimal.
- Moderate.
- Marked.

3. Are there accelerations present?

- No.
- Yes.
- Yes, and the strip is reactive.

4. Are there decelerations present?

- None.
- Variable.
- Early.
- Late.
- Prolonged.

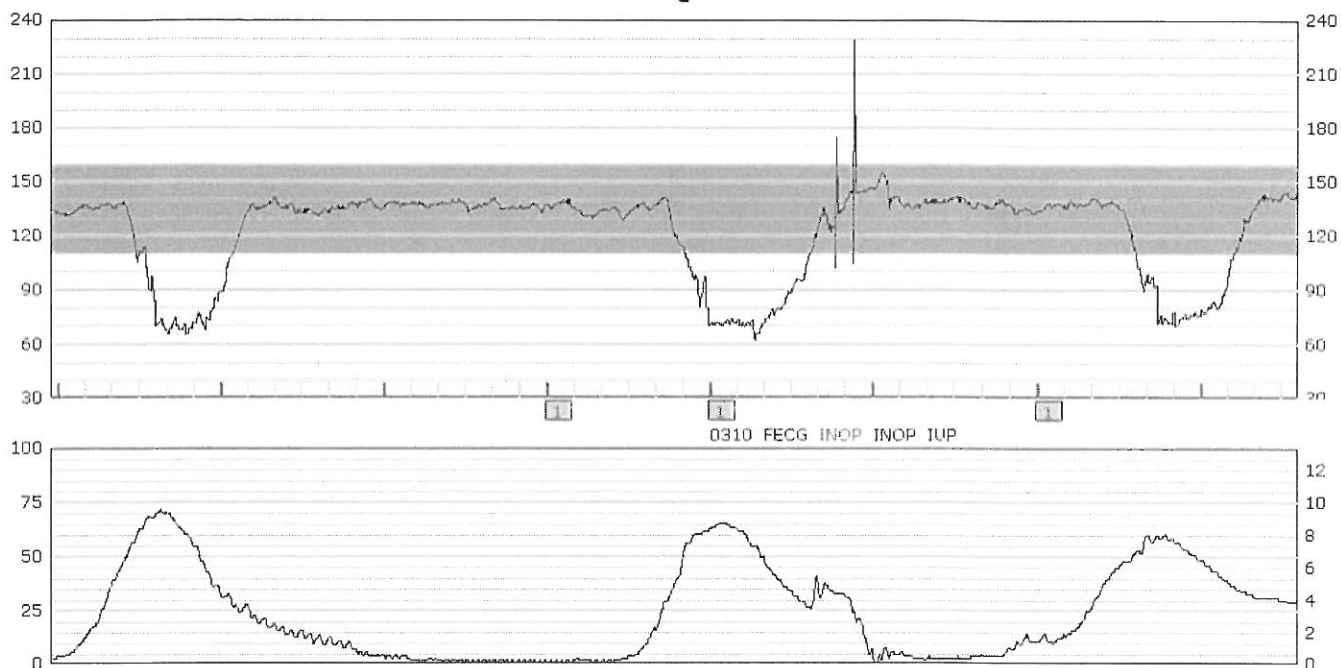

5. Are contractions present?

- None.
- Occasional.
- Regular.
- Hyperstimulation.

**6. Is this FHT reassuring?**

- Yes. It is reassuring and reactive.
- It is overall reassuring, but not reactive.
- This tracing is nonreassuring and requires intervention.

## FHT Quiz 2

Fetal Tracing Quiz Please answer each question.

1. What is the baseline of the FHT?

- 120
- 125
- 130
- 135
- 140

2. Describe the variability.

- Absent.
- Minimal.
- Moderate.
- Marked.

3. Are there accelerations present?

- No.
- Yes.
- Yes, and the strip is reactive.

4. Are there decelerations present?

- None.
- Variable.
- Early.
- Late.
- Prolonged.

5. Are contractions present?

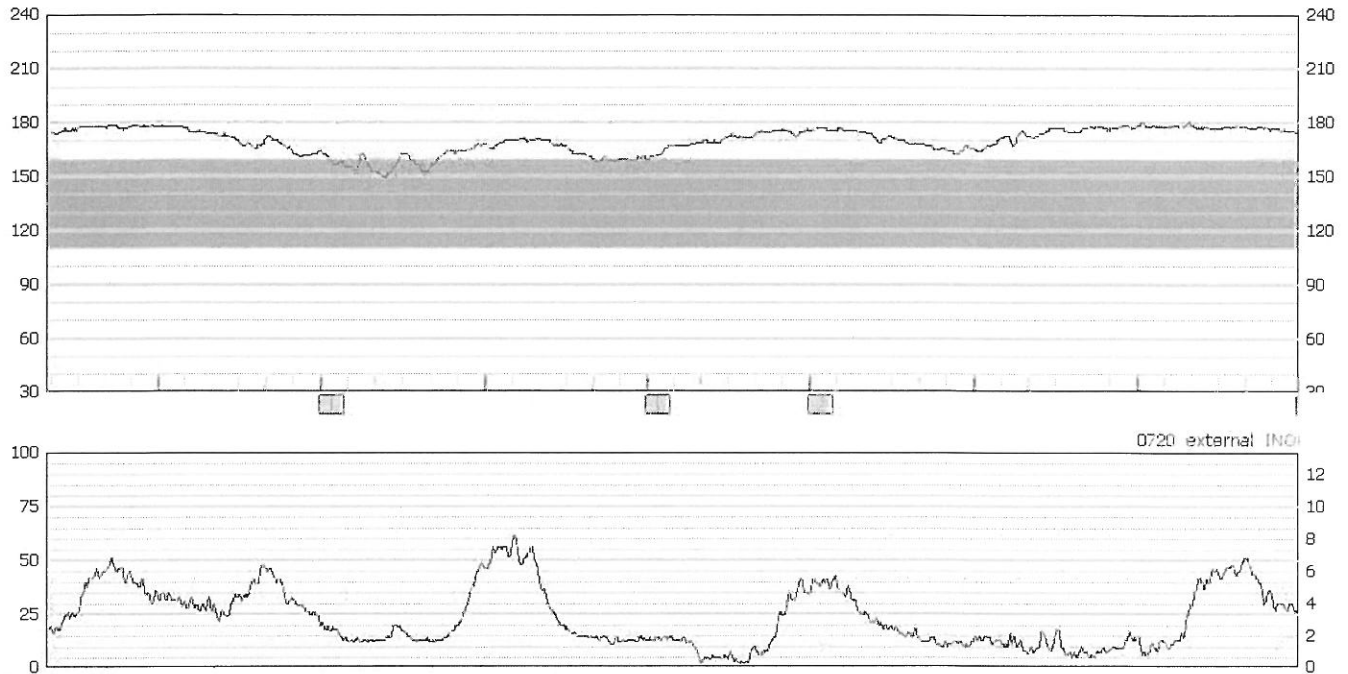

- None.
- Occasional.
- Regular.
- Hyperstimulation.

6. Is this FHT reassuring?

## Fetal Heart Tracing Quiz 2

- Yes. It is reassuring and reactive.
- It is overall reassuring, but not reactive.
- This tracing is nonreassuring and requires intervention.

### FHT Quiz 3

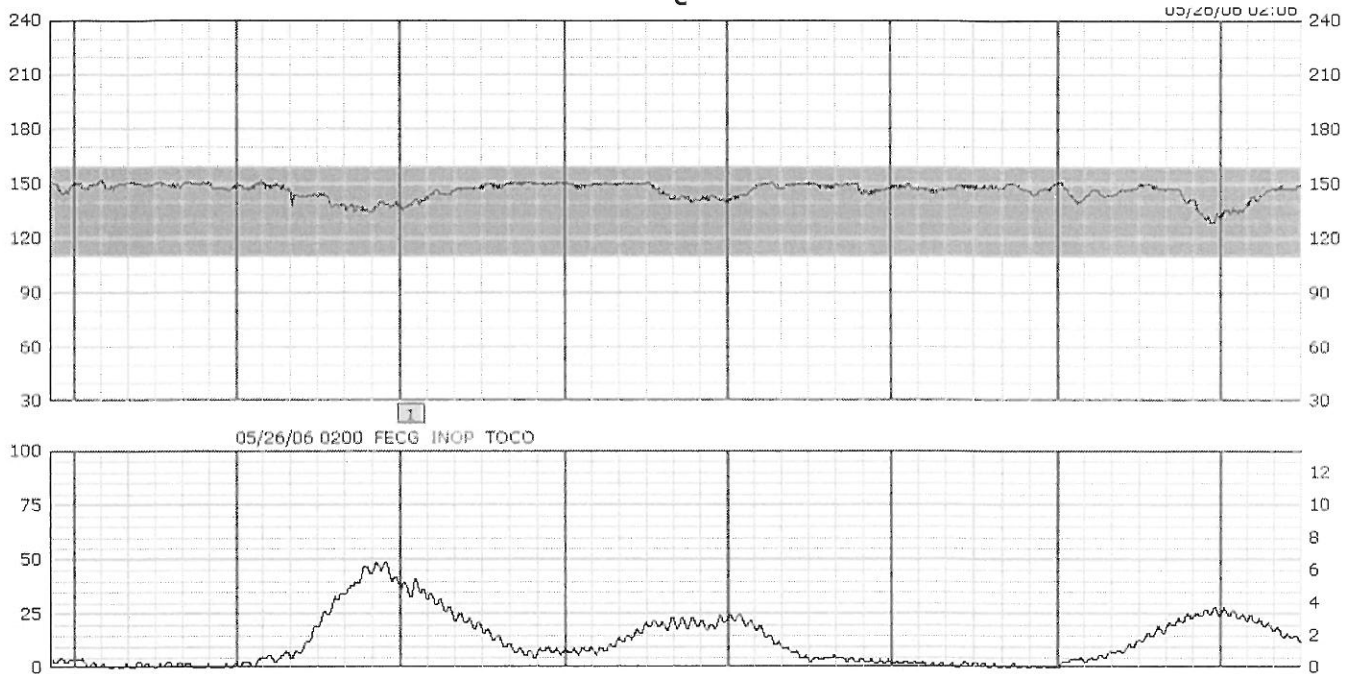

Fetal Tracing Quiz Please answer each question.

- 1. What is the baseline of the FHT?**
  - 160
  - 165
  - 170
  - 175
  - 180
- 2. Describe the variability.**
  - Absent.
  - Minimal.
  - Moderate.
  - Marked.
- 3. Are there accelerations present?**
  - No.
  - Yes.
  - Yes, and the strip is reactive.
- 4. Are there decelerations present?**
  - None.
  - Variable.
  - Early.
  - Late.
  - Prolonged.
- 5. Are contractions present?**
  - None.
  - Occasional.
  - Regular.
  - Hyperstimulation.

**6. Is this FHT reassuring?**

- Yes. It is reassuring and reactive.
- It is overall reassuring, but not reactive.
- This tracing is nonreassuring and requires intervention.

## FHT Quiz 4

Fetal Tracing Quiz Please answer each question.

1. What is the baseline of the FHT?

- 130
- 135
- 140
- 145
- 150

2. Describe the variability.

- Absent.
- Minimal.
- Moderate.
- Marked.

3. Are there accelerations present?

- No.
- Yes.
- Yes, and the strip is reactive.

4. Are there decelerations present?

- None.
- Variable.
- Early.
- Late.
- Prolonged.

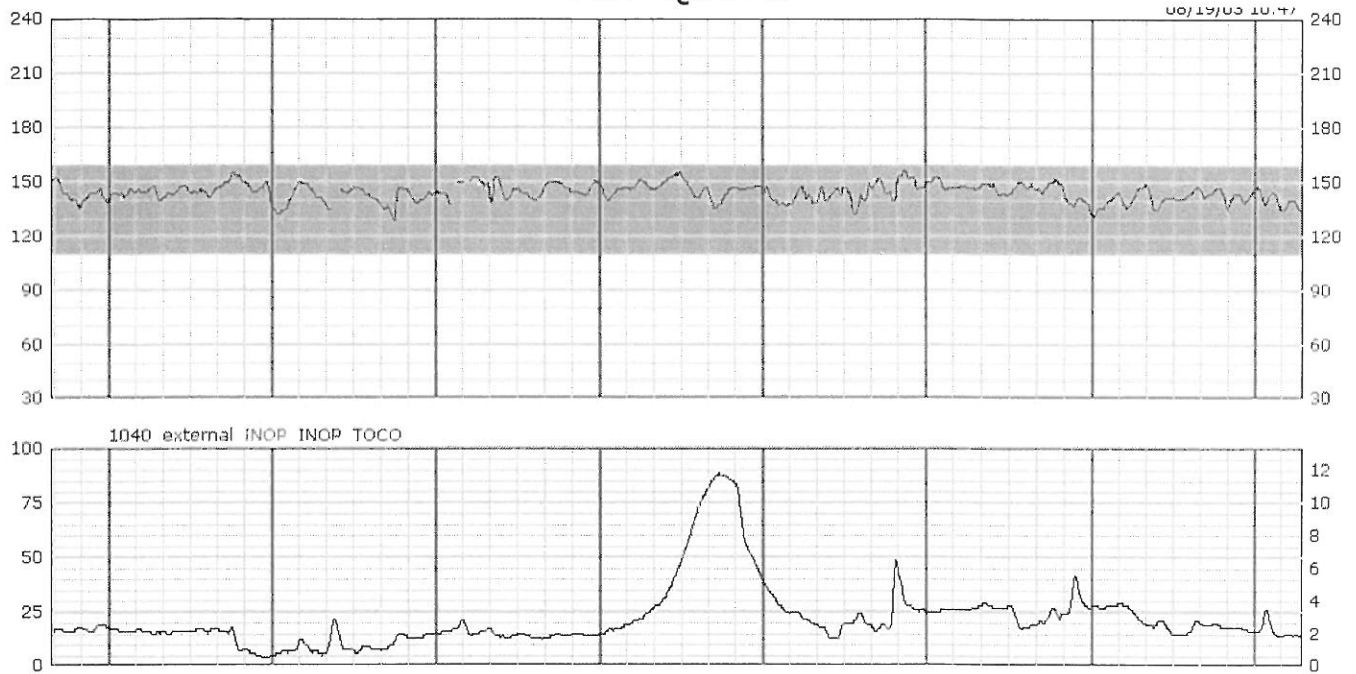

5. Are contractions present?

- None.
- Occasional.
- Regular.
- Hyperstimulation.

**6. Is this FHT reassuring?**

- Yes. It is reassuring and reactive.
- It is overall reassuring, but not reactive.
- This tracing is nonreassuring and requires intervention.

## FHT Quiz 5

**Fetal Tracing Quiz** Please answer each question.

1. What is the base line of the FHT?

- 140
- 145
- 150
- 155
- 160

2. Describe the variability.

- Absent.
- Minimal.
- Moderate.
- Marked.

3. Are there accelerations present?

- No.
- Yes.
- Yes, and the strip is reactive.

4. Are there decelerations present?

- None.
- Variable.
- Early.
- Late.
- Prolonged.

5. Are contractions present?

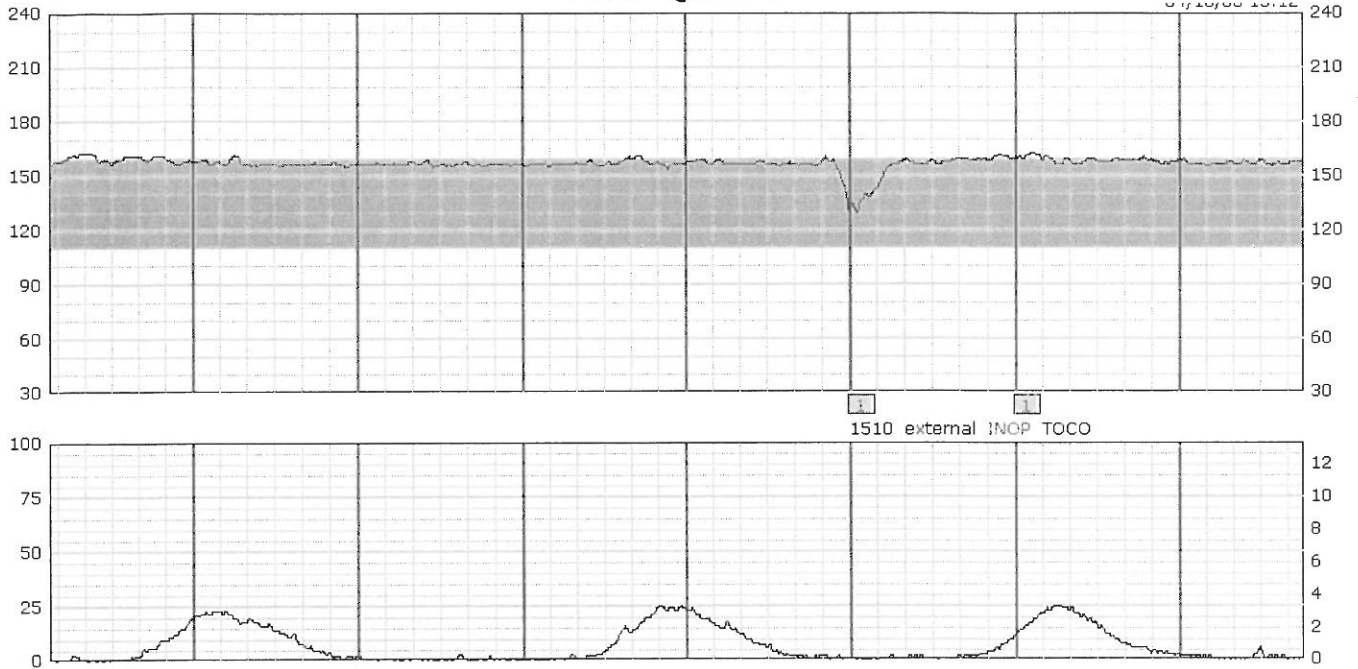

- None.
- Occasional.
- Regular.
- Hyperstimulation.

6. Is this FHT reassuring?

## Fetal Heart Tracing Quiz 5

- Yes. It is reassuring and reactive.
- It is overall reassuring, but not reactive.
- This tracing is nonreassuring and requires intervention.

### FHT Quiz 6

Fetal Tracing Quiz Please answer each question.

1. What is the baseline of the FHT?

- 140
- 145
- 150
- 155
- 160

2. Describe the variability.

- Absent.
- Minimal.
- Moderate.
- Marked.

3. Are there accelerations present?

- No.
- Yes.
- Yes, and the strip is reactive.

4. Are there decelerations present?

- None.
- Variable.
- Early.
- Late.
- Prolonged.

5. Are contractions present?

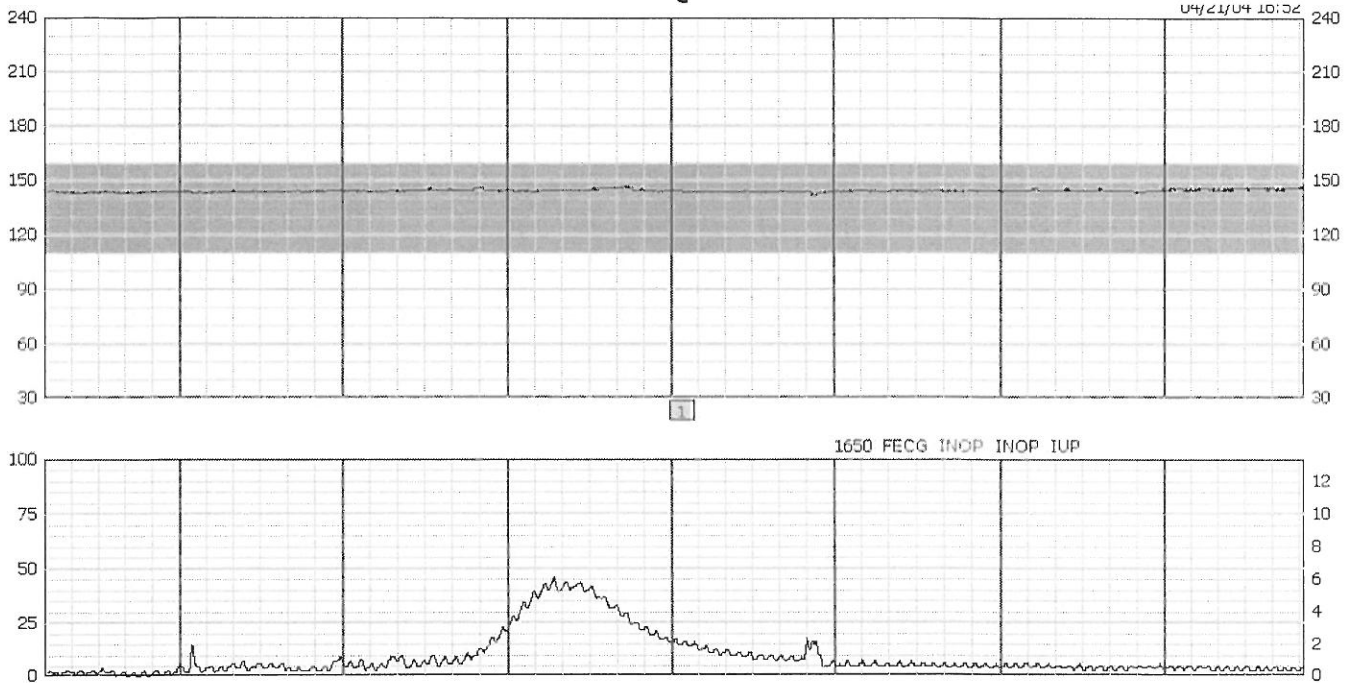

- None.
- Occasional.
- Regular.
- Hyperstimulation.

6. Is this FHT reassuring?

## Fetal Heart Tracing Quiz 6

- Yes. It is reassuring and reactive.
- It is overall reassuring, but not reactive.
- This tracing is nonreassuring and requires intervention.

## FHT Quiz 7

**Fetal Tracing Quiz** Please answer each question.

1. What is the baseline of the FHT?

- 140
- 145
- 150
- 155
- 160

2. Describe the variability.

- Absent.
- Minimal.
- Moderate.
- Marked.

3. Are there accelerations present?

- No.
- Yes.
- Yes, and the strip is reactive.

4. Are there decelerations present?

- None.
- Variable.
- Early.
- Late.
- Prolonged.

5. Are contractions present?

- None.
- Occasional.
- Regular.
- Hyperstimulation.

**6. Is this FHT reassuring?**

- Yes. It is reassuring and reactive.
- It is overall reassuring, but not reactive.
- This tracing is nonreassuring and requires intervention.
